Fly in shows - update October 2022

## stage plan

No vocals on stage, no microphones for voices.

Amps set up behind the drummer.

Stands for overheads need to be behind the drum kit, out of vision between drummer and bassist/guitarist.

Start with nothing in the monitors.

Once the Backline, sound system, and stage are properly set up,

**We need 40 minutes soundcheck minimum.**

**Light check is during the soundcheck.**

Venue have to provide a sound engineer, and a light technician.

Please inform us before our coming if any points of this technical rider are subjects to problems.

**SET is approximately 50 minutes long**

We'd like to record the show with our ZOOM H6 located at the FOH, there are 4 inputs that can come from the mixing desk.

Before and after the show we want to play ZEIT from Tangerine Dream.

You can download it here : [www.amortout.com/zeit.zip](http://www.amortout.com/zeit.zip)

## PLAY ZEIT BEFORE/AFTER THE SHOW

Fly in shows - update October 2022

## light

### We bring :

- A white suspended light bulb 300W (+ 10m cable + socket)
  - to be hanged approximately at 1 meter from the floor and 1,5 meter from the drums
  - plugged on our light modulator at the guitarist pedal board ([schematic of the installation](#))
  - it is the main light for the whole show, but the light technician have the highlight the dynamic..
- A 3W LED pinspot, installed on the flood, under the light bulb.
- Gobo of band logo, size A (for the profile spot to be supplied)

### We need :

- A profile spot halogene 1000W with gobo holder Size A (for ex : Selecon Pacific 12°-28°)
  - If no proper surface for projection of the Gobo, we need a black Backdrop.
  - No White screen for video projection, if so, have to be covered by the black backdrop.
- a PAR56 300W MFL on a floor stand - traditional lamp (no led) to be installed behind the drumkit.
- a [Coemar Versatile projector](#) on flood stand
- Smoke (ideally with the foot switch on Matthieu' side, bass side, stage left).
- A ladder to fix the light bulb and the profile spot.

### We don't want :

- No colored lights (No Colors, No colored gels !!!)
- No RGB LED (no white done with RGB, just pure white LED is accepted from 2000K to 8000K)
- No front light

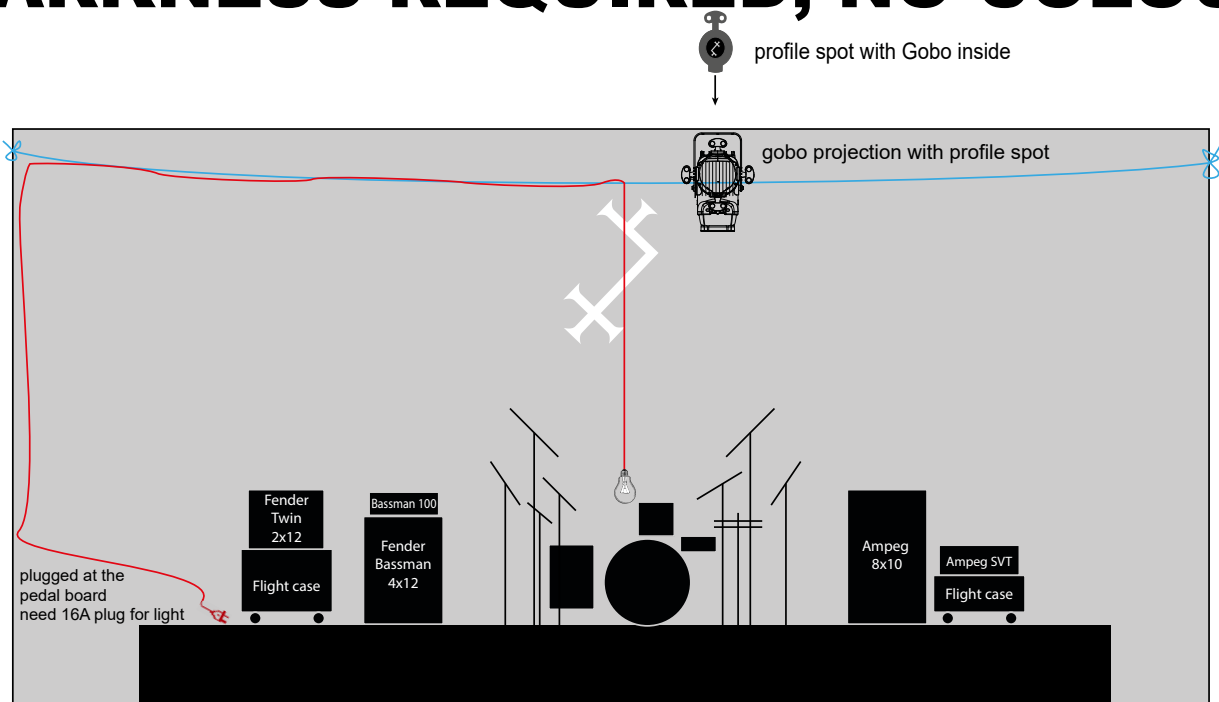

### Light Plot :

- Need to be dark, slow & no colors !!! (We appreciate a 10 minute talk with the light technician)

Light check is during the soundcheck, light technician need to be available.

## the main light is the light bulb

## DARKNESS REQUIRED, NO COLOURS
