road trip shows - update March 2025

## general rider

### Shantidas Riedacker

Guitar

phone : +33 (0) 6 25 61 24 18

passport : 22AH00790

born July 25th 1978

Sacem N°716248 / coad 557352

### Antoine Hadjioannou

Drums

phone : +33 (0) 6 47 74 60 26

passport : 24HA32333

born July 20th 1979

Sacem N°716210 / coad 557299

### Matthieu Canaguier

Bass

phone : +33 (0) 6 88 89 29 33

passport : 22HF27430

born May 15th 1979

Sacem N° 716249 / coad 557353

### **LODGING for 3 people :**

3 singles rooms. (Please understand that on tour, we spend most of the time together, in the van, on stage, and off stage. Some privacy is important for the health of the band)

### **FOOD :**

3 hot meals (1 vegetarian, 2 carnivores) + Fruits and snacks in the backstage at arrival.

### **BACKSTAGE:**

Water (still and sparkling)

IPA beers (better quality than quantity)

Wine

Fruits & snacks (bread, cheese...)

### **GUESTS :**

The band need to be able to invite 4 guests minimum.

### **MERCHANDISING TABLE :**

A large table, not to share with other bands. Someone must be in charge of it during the performance.

### **PHOTO & VIDEO POLICY :**

Photographies & Videos are allowed during the whole set, but only in Black & White. No Flash. No Color.

### **PROMOTION :**

You can download promo material of the band here : [www.amortout.com/aluktodolo/promohd.zip](http://www.amortout.com/aluktodolo/promohd.zip)

and a bio of the band : [www.amortout.com/aluk-todolo\\_bio-eng.pdf](http://www.amortout.com/aluk-todolo_bio-eng.pdf)

### **UNLOADING & LOADING THE VAN :**

We need help to download and upload the van.

### **PARKING :**

We arrive by van, a free and safe parking is needed at arrival, and during the show.

During the night, we need a 100% safe parking if the backline has to stay in the van.

**Give us informations about the parking situation for the evening & night before our arrival.**

## NO PLATFORM - NO GATE FOR DRUMS

# ALUK TODOLO

road trip shows - update March 2025

## stage plan

No vocals on stage, no microphones for voices.

Amps set up behind the drummer, no platform for the drums.

Stands for overheads need to be behind the drum kit, out of vision between drummer and bassist/guitarist.

Start with nothing in the monitors (most of the time we don't use monitors).

Once the Backline, sound system, and stage are properly set up,

**We need 30 minutes soundcheck minimum.**

**light check is during the soundcheck**

(light guy need to be there during the soundcheck)

Venue have to provide a sound engineer, and a light technician.

Please inform us before our coming if any points of this technical rider are subjects to problems.

**SET is approximately 50 minutes long**

We'd like to record the show with our **ZOOM H6** located at the FOH,  
there are 4 inputs that can come from the mixing desk + a stereo microphone.

Before and After the show we want to play **ZEIT** from Tangerine Dream

You can stream it from Spotify, Youtube, or download it here : [www.amortout.com/zeit.zip](http://www.amortout.com/zeit.zip)

## PLAY ZEIT BEFORE & AFTER THE SHOW

Contact : Aluk Todolo c/o Riedacker 3 rue de Bourgogne 93000 Bobigny FRANCE

road trip shows - update March 2025

## light

### We bring :

- A white suspended light bulb 300W with the cable to be hanged approximately at 1 meter from the floor and 1,5 meters from the drums (see drawing)
- 1 LED pinspot 3W, installed on the flood, under the light bulb (controlled from our light pedalboard)
- 2 LED Spot Moving Head 90W (Varytec Hero 90) (controlled from our light pedalboard)
- 2 Profiles spot with gobo (Derksen Phos85 - 80 W) can be DMX or ON/OFF
- 1 Coemar Versatile halogene 1000 W (controlled from our light pedalboard)
- 1 Par 300W installed behind the drumkit and between the amps (controlled from our light pedalboard)
- 2 Strobs installed behind the amps (controlled from our light pedalboard)
- 1 Smoke Machine 800W (controled by our bass player)

### We need :

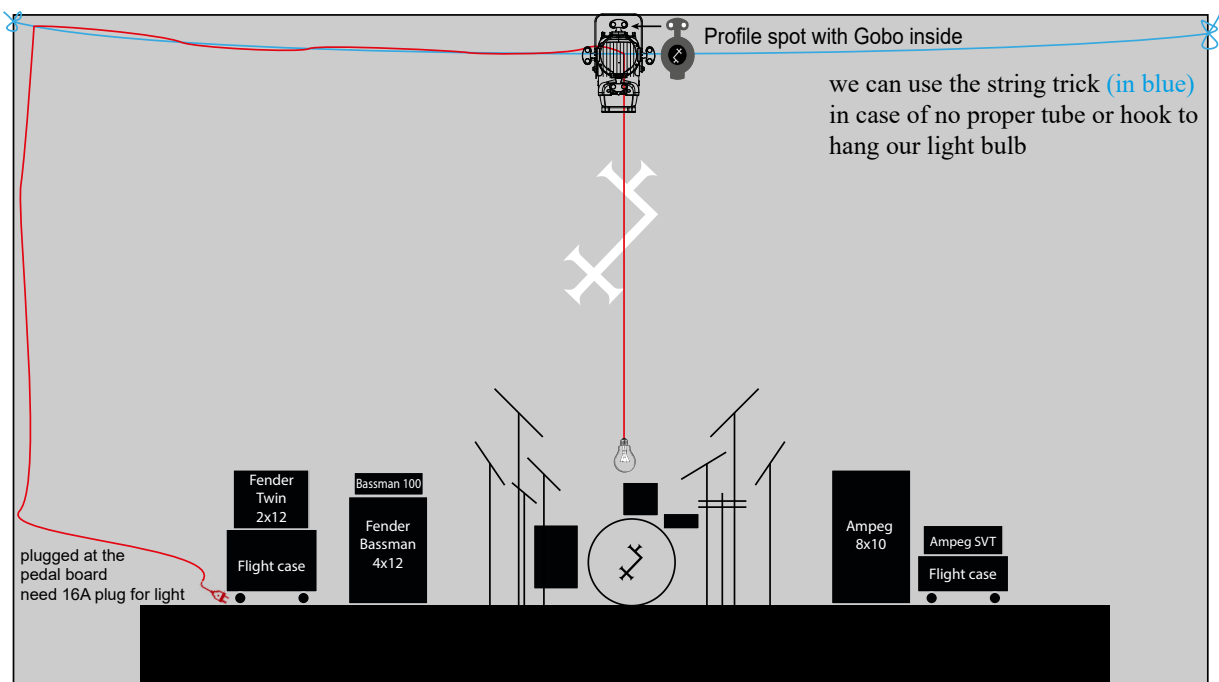

- A ladder to fix the light bulb and the profile spot (or wooden sigil)
- Help is appreciated for the installation
- If no proper surface for projection of the Gobo, we need a black Backdrop

### We don't want :

- No colored lights (No Colors, No colored gels !!!)
- No front light
- No RGB LED (no white done with RGB, just pure white LED is accepted from 2000K to 8000K or amber)

### Light Plot :

- Need to be dark, slow & without colors !!! (we need a 10 minute talk with the light technician before the show)  
**Light check is during the soundcheck, light technician need to be available.**

**The light bulb is the main light**  
**NO COLOURS, DARKNESS REQUIRED**
